

SPITWATER

PRESSURE CLEANERS

Made in Australia
SINCE 1962

HC11-140P

Petrol Cold Water Cleaner

DDD
LIGHT DUTY

Ergonomic Handle

Longer handle positioned at the perfect height for safe operation and easy manoeuvrability.

Accessory Holder

Additional accessories can be securely stored on the machine.

Honda Engine

Easy, reliable starting 5.5 hp genuine Honda petrol engine.

Robust Frame

Steel powder-coated frame protects the pump from damage during operation and transit, providing optimum durability.

Gun & Lance Holder

Made from powder-coated steel, providing easy access during operation. Also secures the lance off the ground when not in use, eliminating the chance of dirt and debris blocking the nozzle.

Hose Carrier

Powder-coated steel bracket keeps hose tidy when not in use.

**TOUGH
+ READY**

HC11-140P

The HC11-140P has been redesigned and is manufactured from the ground up at the Albury factory delivering a tough and ready, ergonomically enhanced pressure cleaner solution. The machine is fitted with a genuine GP160 Honda engine and paired with an Interpump crankshaft piston pump for ultimate reliability. With water pressure of 140 Bar (2030 psi) and flow of 11 L/min, it offers impressive cleaning power for any general property maintenance, tradie clean-up or small business cleaning jobs to be done.

Technical Specifications

Pump		Engine	
Model	Interpump TT1511	Model	5.5 hp Honda (GP160)
Pump Pressure	140 Bar (2030 psi)	Type	4-Stroke single cylinder, OHV
Turbo Pressure	215 Bar (3118 psi)	Fuel Type	Petrol, Unleaded
Pump Flow Rate	11 L/min	Fuel Capacity	3.1 Litres
Speed	3400 rpm	Dimensions & Weight	
Max Inlet Temp	40°C	Frame Structure	Heavy duty zinc-annealed & powder coated steel tubing
Oil Type	15W-40	Dimensions	678mm(L) x 520mm(W) x 1100mm (H)
Capacity	0.3 Litres	Weight	34 Kgs
Performance		Warranty	
Duty Cycle	Light Duty	Unit / Pump	12 months
Usage Frequency	Light Commercial: up to 2 hours a day continuous	Engine	12 months (commercial use)

Ordering Information

Model Number	Description
HC11-140P	Petrol Engine Powered Cold Water Light Duty Pressure Cleaner Supplied with an 8m, ¼ inch diameter, single wire braid high pressure hose, commercial grade, insulated trigger gun with safety lock, commercial grade single lance assembly with quick release coupling, 4-way adjustable spray nozzle (hi-lo pressure, 0-40 degrees spray angle) and adjustable chemical injector complete with chemical suction hose and strainer.

Optional Accessories

Model Number	Description
PA26105000	High Pressure Swivel to eliminate unwanted twisting of the hose.
SWA995/033N	Turbo Lance to reduce cleaning time by increasing washing effect.
SWA56/A	Foaming Bottle Attachment for applying detergent. Foamed detergent adheres to surfaces more effectively than conventional methods. It offers longer contact time and provides even coverage lifting dirt and grime for ultimate cleaning performance.
GPDFSCP12-KIT	12" Flat Surface Cleaner complete with 340mm lance to reduce cleaning time of flat surfaces such as driveways and rooves.
47199/M22-20N	20m Extension Hose complete with M22 nipple to extend cleaning reach.
